

Update on Total official support for sustainable development (TOSSD)

ArabStat meeting

11 November 2021, Virtual meeting

Guillaume Delalande (Guillaume.Delalande@oecd.org)

TOSSD Task Force Secretariat
OECD Development Co-operation Directorate (DCD)

Financing for Sustainable Development Division (FSD)
Statistical Standards and Methods Unit

Outline

- 1. What is TOSSD?
- 2. Update on main TOSSD developments

①

What is TOSSD?

What is TOSSD?

TOSSD is a new international statistical measure that provides a complete picture of all official resources and private finance mobilised by official interventions in support of sustainable development and the Sustainable Development Goals (SDGs).

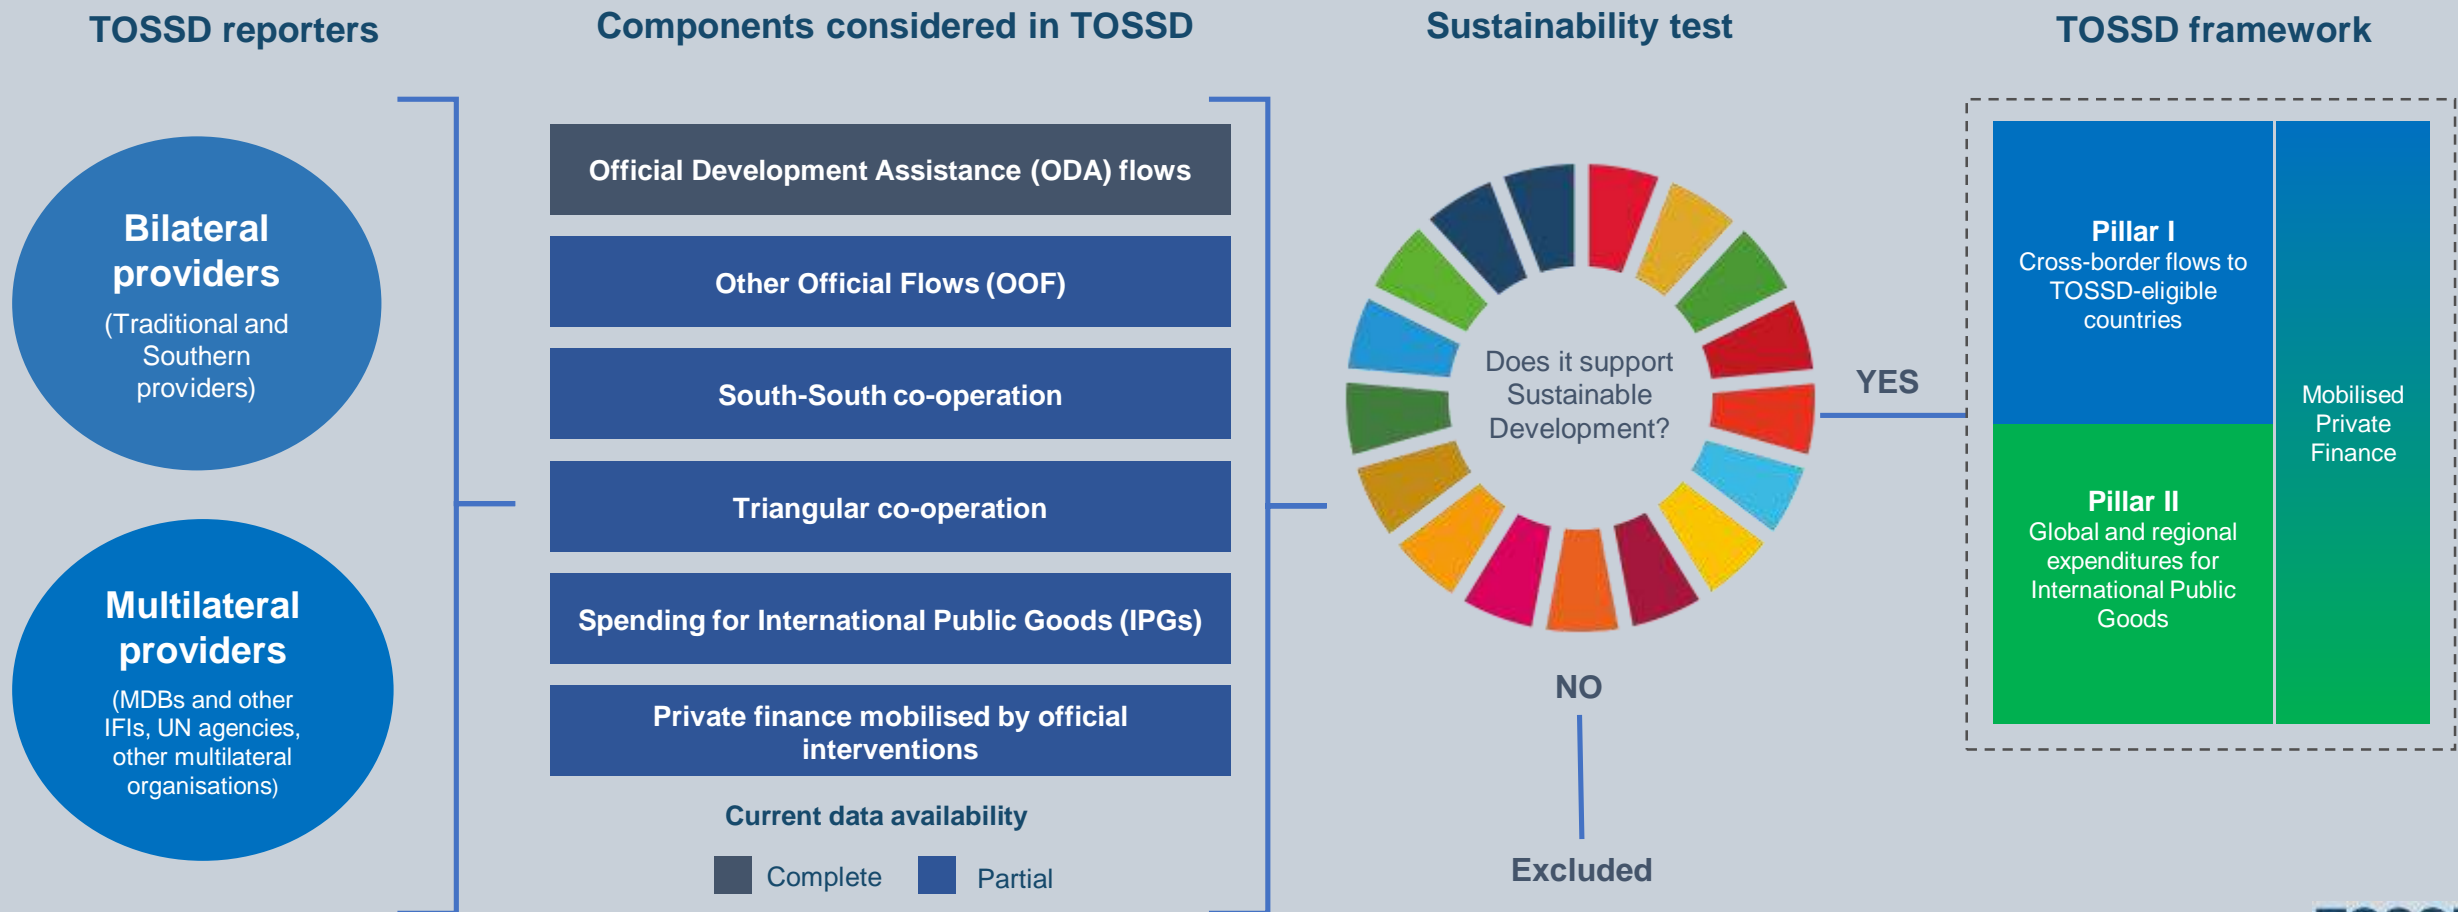

“ *What is private finance mobilised by official interventions?* ”

“ *These are private resources that would not have been invested in sustainable development without an official development intervention, such as the use of a guarantee.* ”

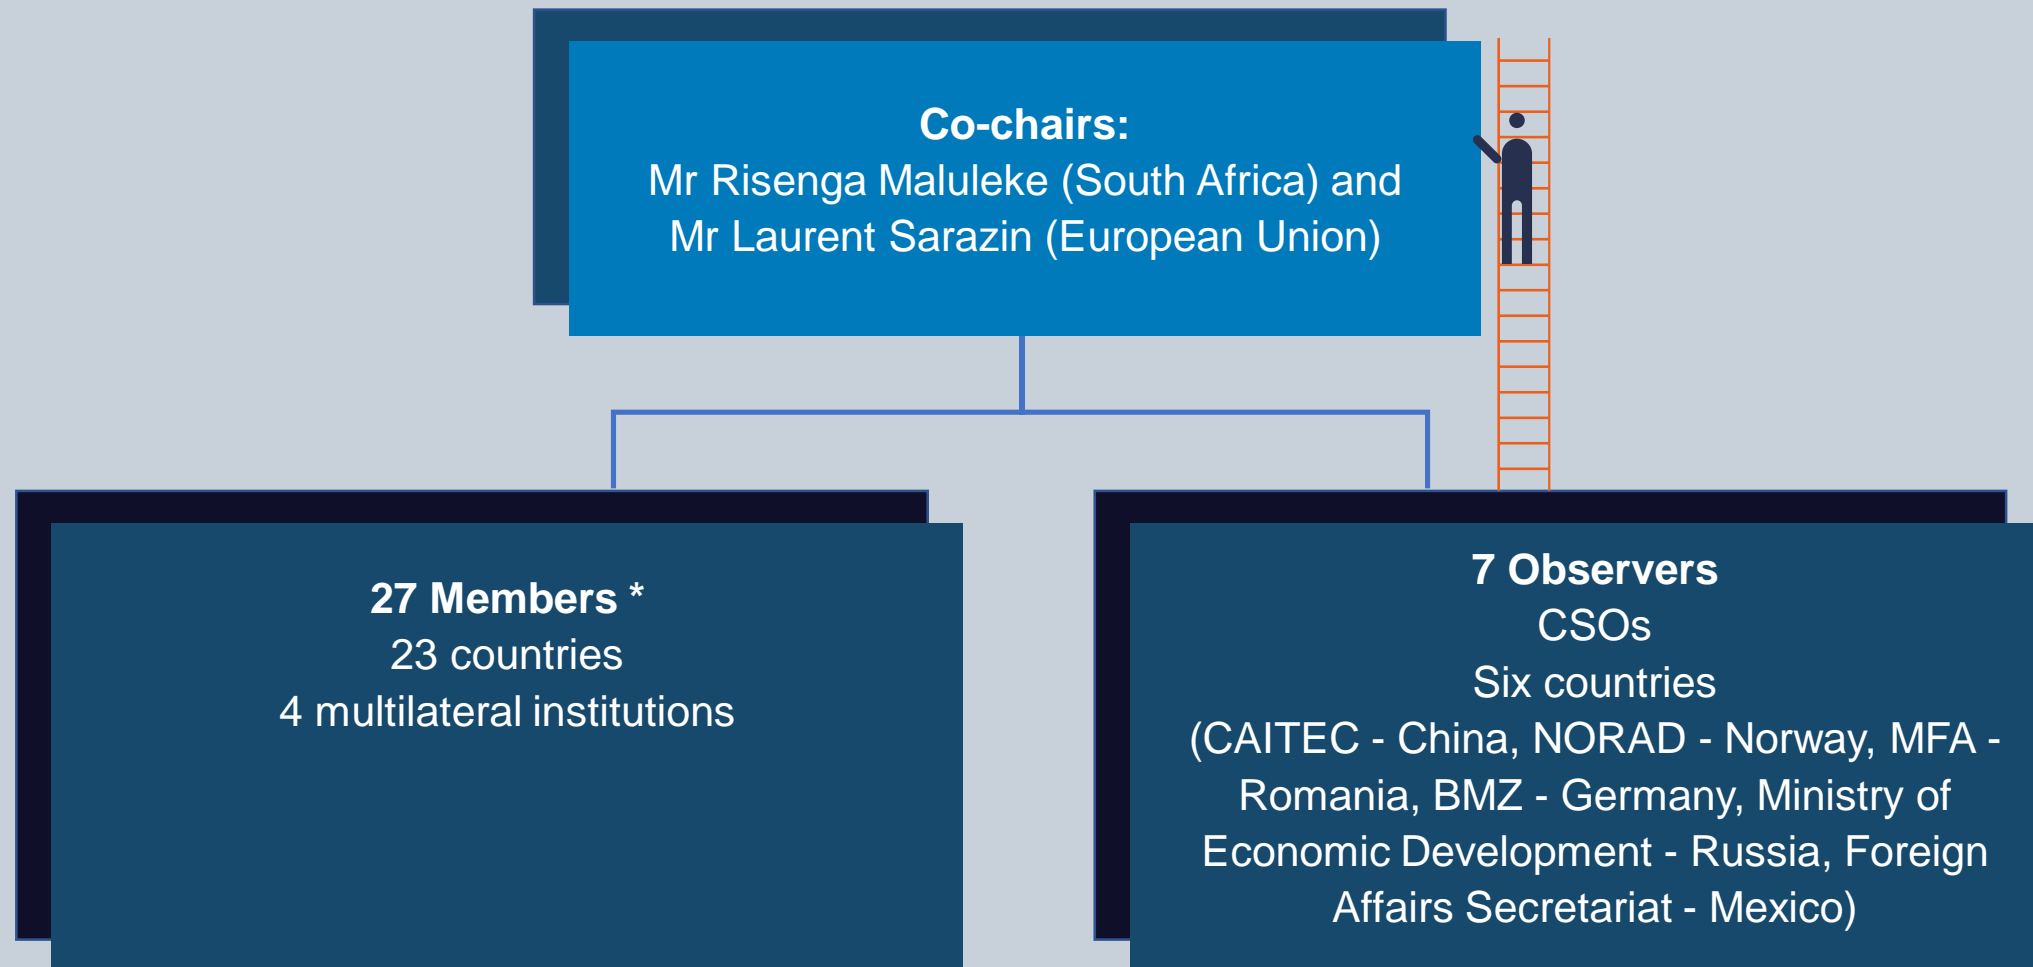

What is TOSSD?

A framework to measure resources in support of sustainable development

More countries and organisations are welcome to join the TOSSD Task Force

* Including Egypt, the IsDB, SESRIC and Tunisia.

TOSSD and the Arab Community

- Among more than 90 countries and organisations, **the following countries and organisations** from the Arab community **have submitted or are expected to submit their TOSSD data in 2021 on 2020 expenditures:**
 - **Arab Fund, Arab Bank for Economic Development in Africa (BADEA), IsdB, Kuwait, Qatar, Saudi Arabia, SESRIC, Turkey, UAE**
- **On the benefits** perceived by countries and organisations from the Arab Region, TOSSD helps to :
 - **Provide more information to recipient countries through international statistics**, to help them for their development planning and the monitoring of the SDGs.
 - **Valorise activities on sustainable development finance in international statistics**
 - **Develop the first picture of Islamic finance for sustainable development.**

2

**Update
on main TOSSD developments**

An increasing international political uptake

From 2019 to 2021, an increasing political uptake of TOSSD

2019

2022

Towards a recognition of TOSSD at the UN?

TOSSD is expected to be recognised as a data source in the global indicator framework for the SDGs in March 2022

In 2020, the IAEG-SDGs proposed to the UN StatCom (3-6 March 2020) to form a working group on measurement of development to finalise a methodology for the target 17.3 “Mobilize additional financial resources for developing countries from multiple sources”.

Expected duration: **2 years**. In 2022, a finalised methodology will be considered for inclusion in the global indicator framework.

The Group was co-chaired by the NSOs of Colombia and Norway. It had 21 member countries. The OECD and UNCTAD had been invited in the Group to provide substantive inputs.

TOSSD is referenced as a data source for indicator 17.3.1. on the measurement of development support, discussed and endorsed at the IAEG-SDGs working group meeting on 2 November 2021.

The proposal will be presented for adoption at the UN StatCom in March 2022.

Major progress at the technical level

TOSSD Progress

Join our pilot studies!

Anticipated pilot with Egypt in 2022

Pilot studies are carried out to improve the TOSSD statistical methodology (seminars have already been carried out with Nigeria, Costa Rica, Indonesia, Burkina Faso, and on Peace and Security. Others are ongoing with Chile, on the topic of health and with Bangladesh, Cameroon and Colombia).

Join our capacity-building seminars!

These seminars aim to train staff of your countries to report to TOSSD and use TOSSD data. Upcoming seminars planned with the IsDB currently under discussion for early 2022.

Check out TOSSD data!

How much support is provided Arab countries and other countries of the world for their sustainable development? Check:

<https://tossd.online>

The first TOSSD data collection was very successful

Join the new one!

91 Respondents

of which...

43 Countries

48 Multilateral organisations

Including UN entities and MDBs

First-time data from 13 countries and multilateral entities

Chile

Costa Rica

Indonesia

Nigeria

Global Partnership for Education

Private Infrastructure Development Group

SESRIC

UN Capital Development Fund

UNCTAD

UNIDO

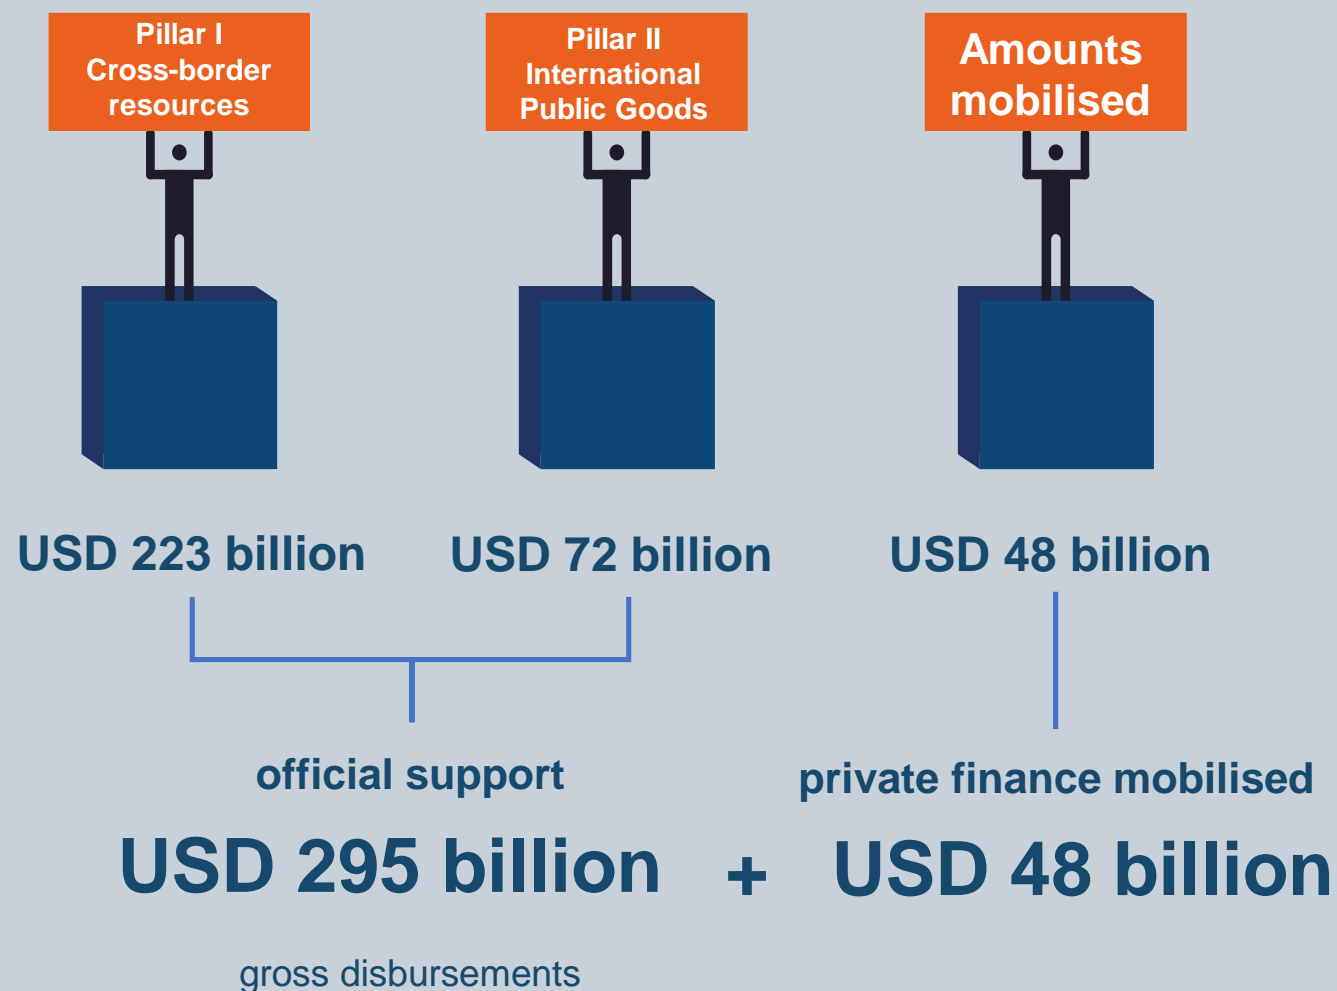

UN inter-agency pooled funds

UN Office on Drugs and Crime

UN Secretariat

TOSSD Highlight Figures 2019

The figures include

- USD 63 billion of estimated data gaps derived from CRS for non respondents (included only at aggregated level)

The figures do not include

- EIB pillar II activities for USD 17 billion, reported on a commitment basis (included in the downloadable dataset on tossd.online)

Some of the mobilisation data are confidential

- Only USD 13 billion are fully disclosed on tossd.online.
- MDBs' data on mobilisation are treated as confidential pending agreement on the appropriate level of aggregation in public disclosure.

Next steps

Time	Description
December 2021	Submission of the report to the UN Statistical Commission containing the final proposal for indicator 17.3.1
December 2021	Expected TOSSD data release on 2020 activities
January 2022	TOSSD capacity building seminar for Arab countries together with IsDB (tbc)
March 2022	UN Statistical Commission – 53rd session
April 2022	Start of TOSSD data collection on 2021 activities
2022-2023	Continuation of TOSSD Pilots
